

Twitter to open transparency centre, label political ads

San Francisco, In a bid to increase transparency on its platform, Twitter has announced to publicly disclose all ads - including political and issue-based ads - and the identity of who bought them.

In the wake of Russia's alleged use of social media platforms to interfere with the 2016 US presidential election, two Democratic senators introduced last week the "Honest Ads Act", a bill which requires tech companies like Facebook, Google and Twitter to disclose political ads purchased on their platforms.

"In the coming weeks, we will launch an industry-leading transparency centre that will offer everyone visibility into who is advertising on Twitter, details behind those ads, and tools to share your feedback with us," Twitter posted late on Tuesday.

The transparency centre will show all ads that are currently running on Twitter, including "Promoted-Only" ads, how long ads have been running and ads targeted to you as well as personalised information on which ads you are eligible to receive based on targeting. People can also report inappropriate ads or give negative feedback for every ad running on Twitter, whether the ad targets them or not.

"To make it clear when you are seeing or engaging with an election engineering ad, we will now require that election engineering advertisers identify their campaigns as such. We will also change the look and feel of these ads and include a visual political ad indicator," Twitter said. Twitter has already turned over to the US Senate 201 profile names of accounts associated with alleged Russian effort to meddle in the presidential election last year. The move came after tech critics said that the tech giant was not taking the congressional probe seriously enough.

L&T Technology Services conferred with CII Industrial Innovation Award, 2017

Bangalore, L&T Technology Services Ltd (LTTs), a leading global pure play engineering services company, was conferred with the CII Industrial Innovation Award, 2017 that recognized it as one of the most innovative Indian companies in the services category at the CII Industrial Innovation Awards ceremony in New Delhi on Tuesday.

Speaking on the occasion Mr Chandrajit Banerjee, Director General of CII said, "LTTs has a robust innovation engine with a strong innovation culture, effective management of systems and processes and prudent investments to nurture and empower employees, resulting in tangible and measurable outcomes. These best practices along with a multi-sectoral presence enabling cross-pollination of ideas has led to LTTs providing differentiated engineering solutions to 48 of the world's top 100 R&D companies today."

The Confederation of Indian Industry lauded LTTs' efforts to create a collaborative ecosystem comprising of global technology firms and internationally reputed institutes such as the Indian Institute of Science, IITs, Germany's Fraunhofer and US-based Purdue University to make advances in R&D, creating best in class engineering solutions that can benefit the nation. CII also praised LTTs' breakthrough research being conducted across 30 laboratories that seek to address the future needs of its global customers. Its innovation culture, effective management, inputs to innovation and the results of innovation.

CII Industrial Innovation Awards were instituted by CII in 2014 to recognize and celebrate innovative Indian enterprises across industry segments. These premier awards seek to recognize and honor the Indian Industry's brightest stars and to identify the top Innovative Organizations & Start-ups in the country.

Business Brief

Infosys to continue with market-driven strategy

Bengaluru, Emerging out of boardroom battles and troubled times, software major Infosys Ltd decided to continue with its market-driven strategy, said a top official on Tuesday. "Our strategic direction will continue to be driven with a portfolio of market relevant design, consulting and technology services, enabled by software," Infosys Interim Chief Executive U.B Pravin Rao said in a statement here.

With the return of co-founder Nandan Nilekani as non-Executive Chairman of the revamped Board on August 24, members of the new management team and Committee of Directors undertook a strategy refresh exercise over the past eight weeks.

"All programmes, accelerated execution plans and prioritised areas of investments across the services and software were reviewed to sharpen the direction," noted Rao. One of the outcomes of the exercise was a reinforcement of the strategy to be relevant and accelerate the execution. It has been a good quarter all around. We continue to be optimistic about the future," added Rao. The process of identifying the next Chief Executive Officer and shareholder consultation outreach were also progressing well, reiterated the statement. "Q2 has been a quarter of stability and overall performance. Customer relations have stabilised as evidenced by the increase in large deal wins. Our focus on operational efficiency continued into this quarter," said Chief Financial Officer M.D. Ranganath in the statement.

Apple acquires New Zealand-based wireless charging firm

San Francisco, Apple that recently introduced wireless charging to its smartphone lineup has acquired a New Zealand-based firm PowerbyProxi for an undisclosed sum.

According to a report in stuffs.co.nz on Wednesday, Apple bought PowerbyProxi which specialises in wireless charging technologies based on the Qi wireless standard. Auckland entrepreneur Fady Mishriki set up PowerbyProxi in 2007 with the goal of helping people charge everyday devices such as mobile phones without having to plug them in. "The company now employs about 55 staff and holds more than 300 patents relating to wireless charging," the report added.

PowerbyProxi's team would be "a great addition as Apple works to create a wireless future", Dan Riccio, Apple's Senior Vice President of Hardware Engineering, was quoted as saying.

"We want to bring truly effortless charging to more places and more customers around the world."

Last month, Apple unveiled its world-class wireless charging solution as it launched iPhone 8, 8 Plus and iPhone X. Wireless charging works with the established Qi ecosystem, including two new wireless charging mats from Belkin and mophie, available from Apple Authorised Resellers.

Russian economy needs to do more: Putin

Moscow, Russia's economy needs to become more dynamic and efficient, Russian President Vladimir Putin said on Tuesday. "We cannot be satisfied with the current growth rate. We have to raise it to the levels above the global average," Xinhua cited Putin as saying in an address to an international investment forum in the Russia capital Moscow.

The Russia leader said the country's economy was reviving with its gross domestic product rising over the last four quarters, with the growth rate exceeding two per cent in the third quarter this year. "To reach the pre-set targets, the country needs to activate new sources of growth," he added. Primarily, Russia needs to increase labour productivity through modernising production and launching new industrial units on the basis of modern technologies, he said. Russia should keep improving its business climate, stimulate competition and create a more favourable environment to attract investment, Putin noted. The second source of growth, according to Putin, is to further tap into Russia's export potential. The volume of Russian exports other than raw materials and energy rose by 18.6 per cent year-on-year to \$77 billion in the first eight months this year, accounting for 35 per cent of all Russian exports.

HCL net up yearly, flat quarterly in Q2

New Delhi, HCL Technologies on Wednesday reported a Rs 2,188 crore consolidated net profit for the second quarter (Q2) of fiscal 2017-18, registering 8.6 per cent yearly growth and 0.8 per cent flat quarterly growth in rupees. In a regulatory filing on the BSE, the Noida-based software major said consolidated revenue for the quarter (Q2) under review grew 7.9 per cent yearly and 2.3 per cent quarterly to Rs 12,434 crore under the Indian Accounting Standard. Under the International Financial Reporting Standard (IFRS), net income for Q2 at \$339 million is up 12.6 er cent yearly but flat (0.7 per cent) quarterly. Revenue in dollar terms grew 11.9 per cent yearly and 2.3 per cent quarterly to \$1,928 million for Q2.

PNB expects to clock business of Rs 11.50 lakh cr by fiscal-end

Kolkata, State-run lender Punjab National Bank (PNB), which is eyeing a total business of about Rs 11.50 lakh crore by the end of the current financial year, is hoping to bring down the net NPA (non-performing asset) ratio to less than 8 per cent by end 2017-18, an official said here on Wednesday.

"Currently, our total business stood at about Rs 10.50 lakh crore and of which, 60 per cent was of deposits and the rest constitutes the credit. We are targeting a total business of Rs 11.50 lakh crore by end of the current fiscal," the lender's Executive Director Sanjiv Sharan told IANS.

As on June 30, 2017, the lender's gross NPA was at 13.66 per cent while its net NPA ratio was at 8.67 per cent. "We are hoping that the level of gross NPA would come down to less 12 per cent while net NPA ratio is expected to be less than 8 per cent by end March 31, 2018," he said.

The Reserve Bank of India (RBI) had identified 12 large accounts with exposure of more than Rs 5,000 crore and more than 60 per cent of which is recognised as NPAs. Banks have to refer to the new Insolvency and Bankruptcy Code (IBC) for these accounts. "The PNB has the exposure in nine accounts out of 12 stressed accounts referred to IBC and the exposure would be to the tune of Rs 12,000 crore in the nine accounts. In addition to this, we have exposure of about Rs 6,000 crore in 20 stressed accounts, out of 29 additional list," he said.

The lender had reported that its gross NPAs, as on June 30, 2017, stood at Rs 57,720.70 crore while its net NPAs were at Rs 34,572.71 crore.

Meanwhile, the public sector lender reduced Marginal Cost of Funds Based Lending Rate (MCLR) by 20-25 basis points with effect from September 1 and it also slashed base rate by 20 basis points from 9.35 per cent to 9.15 per cent from September 1.
