60% Indians believe growing e-gaming sector can stem brain drain: Study

New Delhi, (IANS) About 60 per cent of Indians believe that the homegrown online skill gaming sector can give people a chance to create for the world and could stem the brain drain to overseas tech jobs, according to a study on Monday.

This comes during the academic year 2021-22, over 200,000 Indian students pursued higher education in the US, while the Indian IT sector faced a persistent 25.2 per cent attrition rate in 2021. The continuing trend of talent exodus forecasts the potential departure of 2 to 2.2 million IT-BPM professionals by 2025.

Amidst this scenario of talent drain, the online gaming sector emerges as a promising career avenue, fostering skill growth and

innovation within India's tech landscape, revealed the study by the E-Gaming Federation (EGF) and Indian Statistical Institute, Kolkata (ISI). "The research highlights the symbiotic relationship between technology and gaming, and the industry rapidly evolves, we have a unique opportunity to harness the creative potential of our youth and build a robust ecosystem that nurtures both technology and gaming and economic growth," said Dr. Dignita Mukherjee, Professor at the ISI, in a statement. "This analysis unveils a strong belief among the respondents that India's homegrown gaming industry can reduce the brain drain of talents in the technology domain, offering them opportunities towards innovation and growth right here on home soil," added Dr. Subhamoy Maitra, Professor from the Institute. Conducted through an extensive survey of 4,644 individuals across Andhra Pradesh, Telangana, Kerala, Karnataka, and Tamil Nadu, the study demonstrates a very strong interest among both students and professionals in the online skill

gaming sector. The findings showed that 73 per cent of Indians have a strong inclination towards pursuing a career in the online skill gaming sector, highlighting the sector's vast growth potential. Further, 68 per cent people acknowledged the role of gaming in enhancing skill

sets. The study also showcased the online skill gaming sector's appeal to highly skilled engineers, with 45 per cent of respondents identifying it as a preferred domain due to its emphasis on advanced technologies like AI/ML and VR, positioning India as a leading force in technological advancement. Around 67 per cent participants showed a willingness to pursue professional education in the gaming sector, indicating a desire to up-skill and contribute to the industry's growth. The participants also recognised the potential of 'gamification' in ex-

panding the scope of the gaming industry, with 56 per cent agreeing that it offers tremendous opportunities for innovation. Over 62 per cent individuals perceived that the opportunities in the online skill gaming sector can enhance the overall skill sets of students and employees alike.

Now securely access sensitive images stored in Google Photos from more devices

San Francisco, (IANS) Google has rolled out a new update across its Photos app that will make it easier to securely access your sensitive images across all of your devices. The company is rolling out the Locked Folder feature, which allows Android users to hide specific photos and videos behind a passcode—to iOS and web users, as well as a new option to back up Locked Folders in order to access those encrypted

images across multiple devices using Google's cloud. "Today, we're starting to roll out the option to back up your Locked Folder so you can access those photos and videos with your passcode on any of your devices. Plus, you'll now be able to set up and access Locked Folder on iOS devices and the web," Google said in a blogpost on Tuesday. According to the company, photos and videos saved and backed up in your

Locked Folder will not appear anywhere else in the app—you won't see them in your photos grid, Memories, albums, or when you search for photos in Google Photos until you enable backup for Locked Folder. "When you turn backup on for Locked Folders, you will be able to access that content across your devices when you sign in to Google Photos and open Locked Folder with your device's passcode," Google said.

Coworking firm BHIVE to set up Rs 400 cr fund

Bengaluru-based coworking firm BHIVE group is setting up a Rs 400 crore alternate investment fund (AIF) to acquire commercial real estate. BHIVE said the company has launched its new co-working-focused Rs 400 crore AIF. The fund will acquire commercial real estate properties at prime locations with clear titles and occupancy certificates, it added.

The new fund will offer an opportunity to high-net-worth individuals (HNIs) and family-owned businesses looking to participate in the commercial real estate growth story with a minimum investment of Rs 1 crore.

GQC raises stake in Adani Ports to over 5%; investment now in Adani firms Rs 38,700 cr

US-based boutique investment firm GQC Partners has raised its stake in Adani Ports & Special Economic Zone (APSEZ) to over 5 per cent as it continues to bet on the Adani group's growth. The Fort Lauderdale, Florida-based GQC increased its stake in APSEZ from 4.93 per cent to 5.03 per cent by way of bulk deal. Stock exchange filings showed, GQC now has a stake in five of the 10 Adani Group firms. It on August 16 bought 7.73 per cent stake in Adani Power Ltd. Promoter group firms Worldwide Emerging Market Holding and Atria Trade And Investments sold 8.09 per cent stake in Adani Power through block deals. GQC bought 7.73 per cent, filings showed. After the stake sale, promoter holding in Adani Power declined to 66.88 per cent from 74.97 per cent. The investment comes after Deloitte quit as auditor of APSEZ, renewing investor concerns even as the group slowly recovers from the effects of a report by US short-seller Hindenburg Research. The Hindenburg report released January 24 alleged accounting fraud, stock price manipulation and improper use of tax havens, triggering a stock market rout that had erased about USD 150 billion in the market value at its lowest point.

FBI dismantles Qakbot malware that infected thousands of computers globally

San Francisco, (IANS) The Federal Bureau of Investigation (FBI) has dismantled a cybercriminal network behind the infamous Qakbot malware, and has identified more than 700,000 infected computers worldwide, including more than 200,000 in the US. The Department of Justice (DOJ) announced a multi-national operation involving actions in the US, France, Germany, the Netherlands, the UK, Romania, and Latvia to disrupt the botnet and malware known as Qakbot and take down its infrastructure.

The Qakbot malicious code is being deployed from victim computers preventing it from doing any more harm. The DOJ also announced the seizure of more than \$8.6 million in cryptocurrency in illicit profits. The action represents the largest financial and technical disruption of a botnet infrastructure leveraged by cybercriminals to commit ransomware, financial fraud, and other cyber-enabled criminal activity.

Cybercriminals who rely on malware like Qakbot to steal private data from innocent victims have been reminded that they do not operate outside the bounds of the law, said Attorney General Merrick B. Garland.

Together with our international partners, the Justice Department has hacked Qakbot's infrastructure, launched an aggressive campaign to uninstall the malware from infected computers in the United States and around the world, and seized \$8.6 million in cryptocurrency from the Qakbot cybercriminal organisation, which will now be made available to victims.

The Operation "Duck Hunt" team utilised their expertise in science and technology, but also relied on their ingenuity and passion to identify and cripple Qakbot, a highly structured and multi-layered cybercriminal network. The team literally feeding the global cybercrime supply chain, said Donald Atwood, the Assistant Director in Charge of the FBI's Los Angeles Field Office. According to court documents, Qakbot is controlled by a cybercriminal organisation and used to target critical industries worldwide. The Qakbot malware primarily infects victim computers through spam email attachments or hyperlinks. These ransomware groups use the stolen data for a wide range of significant harm to businesses, healthcare providers, and government agencies all over the world.

Hotel industry's contribution to India's GDP to hit \$1 trn by 2047: HAI

New Delhi: According to the report, the estimated growth can be attributed to factors such as GDP growth and increase in income level, increase in inflow of domestic tourists and foreign tourist arrivals (FTA). The direct contribution of Indian hotel industry to the country's GDP is estimated to touch \$1 trillion by 2047, driven by a significant jump in domestic tourist visits and international arrivals, according to a report. As per Vision 2047 Indian Hotel Industry report by the Hotel Association of India (HAI) and Benoni Knowledge, the direct contribution of the hotel industry to GDP was \$40 billion in 2022 and is expected to reach \$68 billion by 2027. The hospitality industry body also pointed out that for the sector to achieve its target, the accommodation

growth will have to go beyond the metros to two and three-tier cities and also to the rural areas. The total contribution includes assistance of services from corporate and industry verticals such as food and beverage, salon & spas but excludes consideration of services market growth and thus taking out scenario-based projections. According to the report, the estimated growth can be attributed to factors such as GDP growth and increase in income level, increase in inflow of domestic tourists and foreign tourist arrivals (FTA). In the mid-term (2027-2037), domestic tourist visits are expected to increase from 677 million in 2021 to 1.5 billion by 2030 and are further expected to jump to 1.5 billion by 2047 in the long-term (2037-2047). It added.

Indian economy shining as beacon of hope in challenging times: Modi

New Delhi: Prime Minister Narendra Modi asserted that India's economy is shining as a beacon of hope in these challenging times. With robust growth and resilient spirit, the future looks promising. Let us keep this momentum and ensure prosperity for 140 crore Indians, he said on X, reacting to news portal Moneycontrol's 'Bullish on India' campaign. The portal, which specialises in reporting

on markets and financial sector, had posted on X that the country's economy has not just withstood challenges, but thrives in setting the stage for optimism. The 'Bullish on India' campaign showcases India's economic resilience and growth potential in various critical sectors, it said.

It aims to analyse the key drivers of India's economic growth while fostering awareness about the unparalleled potential the nation offers at a time of a global economic slowdown, the portal said in a separate statement.

With detailed analysis of macroeconomic factors such as manufacturing, demographic, economy, markets and India's rising stand in the global leadership, 'Bullish on India' has been presented as a data-backed campaign that underlines India's resilient economic growth, it said.
