

DSP Mutual Fund launches DSP Nifty 50 Index Fund & DSP Nifty Next 50 Index Fund

Mumbai, DSP Investment Managers Pvt. Ltd. announced the launch of DSP Nifty 50 Index Fund & DSP Nifty Next 50 Index Fund, open ended index funds which seeks to replicate the performance of the Nifty 50 Index and Nifty Next 50 Index respectively. The NFO is scheduled to open on February 11 and close on February 15, 2019. Anil Ghelani, SVP and Head – Passive Investments, DSP Investment Managers said, “The team at DSP Investment Managers has developed strong knowledge and rich experience in the passive investments space in India. Besides local markets, the team has also developed knowledge both on the product development and fund management side with global best practices.”

Announcing the launch of the new funds, Kalpen Parekh, President, DSP Investment Managers

said, “We are seeing increasing awareness and demand in the passive space in India which has grown from Rs.9000 crores in 2008 to over Rs.1 lakh crore in August 2018. Investors don’t have to restrict themselves to choosing between active and passive investment strategies. They can benefit by adding funds like Nifty 50 and Nifty Next 50 Index funds as a complementary strategy along with their active exposure for meeting their goals in an effective manner.”

The Nifty 50 Index tracks the performance of the top 50 companies in India by market cap. The index invests in market leaders from different sectors and represents the economy through time. The Nifty Next 50 Index tracks 51 to 100 stocks ranked by market cap. This index tries to capture companies which may become the mega caps of tomorrow. Both the indices operate in

the large cap space as defined by SEBI.

The funds are suitable for first time investors who want to access the equity markets and those who want to meet the market at a low cost. Investors looking for a diversified equity exposure and seasoned investors looking to add a core allocation to their portfolio would also benefit from exposure to these funds. DSP Nifty 50 Index Fund & DSP Nifty Next 50 Index Fund will be managed by Gauri Sekaria.

DSP Investment Managers launched their first fund on the passive platform in 2017, which was a one of its kind offering called the DSP Equal Nifty 50 Fund, a smarter and well diversified version of the Nifty 50 Index. DSP was only the second fund house which offered a solution to investors who have idle cash in between trades in equity shares on the capital markets. This offering was the DSP Liquid ETF.

Bharti Airtel tanks over 4% after Moody's downgrade

Mumbai, Shares of telecom major Bharti Airtel Ltd slipped over 4 per cent on Tuesday after ratings agency Moody's downgraded some notes of the company by the subscribers.

After falling up to 4.33 per cent in early trade, the company's stock recovered to trade at Rs 306.20 per share, down 0.13 per cent during the afternoon session on the BSE.

Moody's Investor Service on Tuesday downgraded the senior unsecured rating for Airtel and backed senior unsecured notes issued by subsidiary Bharti Airtel Int'l (the Netherlands) to 'Ba1', or junk rating, from 'Baa3'.

The American rating agency also withdrew the company's 'Baa3' issuer rating and said the outlook was negative.

“The downgrade reflects uncertainty as to

whether or not the company's profitability, cash flow situation and debt levels can improve sustainably and materially, given the competitive dynamics in the Indian telecom market,” Moody's Vice-President Annalisa DiChiara said in a note.

“A significant recovery in cash flow from the core Indian mobile segment is needed to strengthen the company's credit quality and support greater financial flexibility,” DiChiara said. Moody's, at the same time, assigned a Ba1 corporate family rating (CFR) to Airtel, saying it reflects the company's solid market position in the high growth Indian mobile market.

“We recognise the company has raised \$1.45 billion from the pre-IPO of its African operations, with around \$1 billion used to repay debt on consolidated basis,” the ratings agency said.

“The rating outlook could be stabilised if Bharti strengthens its credit profile, with stabilisation of its core Indian mobile and non-mobile services,” it added.

Moody's estimated that the profitability of Bharti's Indian mobile segment will remain low over the next several quarters in the absence of a fundamental change in the pricing of mobile services, together with proportional shift in the composition of Bharti's subscriber base to high-end 4G customers.

Bharti Airtel last week said its net income for the October-December quarter declined nearly 72 per cent to Rs 86 crore due to continuing pricing pressure.

The company has, however, taken steps to improve revenues and profitability including its minimum recharge plans, the Moody's report added.

Samsung Galaxy M20: Decent hardware, bigger screen in a budget

By Krishna SinhaChaudhury

New Delhi, South Korean major Samsung was dethroned by Chinese smartphone player Xiaomi in India in 2018 — the same way Samsung stole the limelight from Nokia in 2012.

Xiaomi dominated 2018 with a market share of 28 per cent while Samsung grabbed 24 per cent share in the same period, according to Counterpoint Research.

Samsung has been feeling the pinch in the affordable and budget segment and now, to counter the growing competition from its Chinese counterpart, the company has introduced “Galaxy M” series that marks a strategy shift in terms of design language, chipset upgrade and internals.

Marketed as “India-first” smartphones, the newly-launched Galaxy M20 and Galaxy M10 are an attempt to offer better specifications at an affordable price.

The Galaxy M10 costs Rs 7,990 for the 2GB RAM+16GB storage variant while the Galaxy M20 will come for Rs 10,990 (3GB RAM+32GB storage version).

IANs used M20 for almost a week and here is what we think of it.

The Galaxy M20 is a step

forward in terms of design language, courtesy the “Infinity-V” notch screen that houses a selfie sensor in it.

The 6.3-inch screen on the phone has an aspect ratio of 19.5:9 with well-rounded corners. The tiny notch sure renders a tall display real estate.

The rear side consists of

polycarbonate panel which definitely didn’t feel as sturdy and premium as those with glass backs.

The device supports a futuristic Type-C charging port sandwiched between a 3.5mm headphone jack and a speaker grille, which a good addition considering the price point.

Rs 50,000 cr at stake; Sebi clampdown coming on MFs lending against shares to promoters

New Delhi,

Alarmed by the recent Zee episode in which nine mutual funds (MFs) were found to have lent a staggering Rs 7,000 crore to promoters of Zee group and then found themselves unable to liquidate the security of listed shares for fear of being unable to recover their full amounts, SEBI is preparing to bring new regulations that will expressly prohibit MFs

from entering into such transactions, according to sources. Not just that, the market regulator is planning to direct MFs to convert all existing innovative security structures into direct pledge of shares, to give at least some measure of control to the MFs. Of late, with the use of fancy footwork by promoters and MFs alike, there have been a spate of similar transactions with NDUs (non disposal undertakings), non-encumbrance undertakings and covenants limiting transfer of shares, but all falling short of pledging the shares. Considering how illusory the security of pledged shares have proven in the Zee episode, Sebi feels all other fancy structures obviously provide no safety at all investors, and these need to be all converted into direct pledge of shares immediately.

Business Brief

Fiberweb (India) Ltd.- reports sales growth of 10% Q-o-Q,for Q3FY19

Mumbai,

Fiberweb (India) Ltd (BSE – 507910), a 100% EOU manufacturers of non-woven fabrics reported 10% growth in sales for the third quarter of FY19 ending 31st December 2018. The company on standalone basis has reported sales of Rs 35.11 crore for Q3FY19 recording a 10% growth on quarter-on-quarter basis. During the quarter the company has reported EBITDA of Rs 7.16 crore, with EBITDA margins of 20%. The net profit at Rs 6.13 crore, reportedly grew by 5.75% on quarter-on-quarter basis for the third quarter of FY19, ending 31st December 2018.

Standalone total revenues were at Rs 35.10 crore on for third quarter of FY19 ending 31st December 2018, reporting a growth of 10%, as compared to Rs 31.94 crore in the previous quarter of FY19.

Company reported EPS of Rs. 2.13 per share for Q3FY19 on Standalone Basis for H1 FY19.

Speaking on the occasion Mr.BhaveshPSheth, President of Fiberweb(India) Ltd said - “ The company is currently undergoing the transition with shift from high volume, low margin business to low volume, high margin products. The Management has also simultaneously initiated steps to increase the turnover and propel the future growth of the company, by entering into niche product segments, the plans for which should be in place by end of the current financial year.”

Monaco’s tech companies can tie up with India: President

New Delhi,

Monaco's technology and investment companies can significantly benefit from the Indian growth story, President Ram Nath Kovind said on Tuesday, when Prince Albert II of Monaco called on him at the Rashtrapati Bhavan.
